## Rumor of Concessions to Roads in Rate Cases

## STOCK MARKET WAS MORE ACTIVE, SCATTERED BUYING WITH AN AVERAGE GAIN OF ONE POINT.

NEW YORK, Feb. 18.—There was a distinct improvement in the security market, bears covering their contracts and the special work of bulls interested the special work of bulls. in keeping up values being more or less noticeable. There was but little real reason for the better feeling and the higher prices which were established in the gossip of the day until just before the close when it became rumored that the Western roads would be granted about 70 per cent of the increases they had asked, and the Eastern roads about manipulators can turn an honest dollar on both sides of the question. ### Ask Quick Famine Relief for China

Unless food in large quantities can be supplied to the sufferers from famine in China within a short time it is feared that the plague, which is already within 150 miles of the famine district will spread throughout China, and may perhaps reach American shores.

The Seattle Commercial Club, which is gathering supplies for the famine sufferers, pointed out this fact in a releasant this morning to Red Cross officials in this city.

In plague is already in Shantung province, and if it invades Central

China, where the population is densest, the mortality from the combined de-pleting forces of plague and famine will be appalling.

The Commercial Club telegraphs that only one-fourth of the cargo, intended to be shipped to China on the transport Buford, had been secured, and made urgent appeal for immediate contribu-tions of supplies and money. Since the Buford is to sail February ontributions made at Washington, where a depot has been established on Fifteenth street, between F and G Fifteenth street, between F and G northwest, should be sent as early as possible.
